

Douglas Hall
Nov. 28th

Dear Mom, Dad, Nana & Rex,

This will just be a short note to accompany the clipping which appeared in the morning's Daily. I only said half of the things in the write up but there is nothing too controversial in any of them so it doesn't matter. Janet & I were cornered last night at the U.F.C.U.S. meeting & a few hours later it was in the press.

I received Mom's letter this morning dated Bermuda 26th Nov. so the mails aren't doing too badly. As yet I haven't checked on times for flying but according to Mom they are quite long, however I will do that shortly. A friend of mine up here invited me to a quite plush party on Saturday & I will have to beg borrow & steal a tuxedo. One fellow I know

has offered to lend me his new one, so if it fits I will be quite pleased. We will be going to buffet supper first then the dance at the Ritz-Carlton followed by various other parties & breakfast the next morning (Sunday) before returning home. I guess that from all indications I won't be going to church on Sunday.

This afternoon we have another practice of the Choral Society & we are fast preparing for our Commencement concert to about 2500 people on Dec. 15th. The society consists of about 225 singers so you can see it will be quite impressive. We are doing numerous songs etc plus the 'Hallelujah' Chorus from Handel, the Shaker Waltz & several other rousing pieces.

I must close now but give my love to Nana & Rex & Mom. Charles.

St. Christoph a. Arlberg 1902m mit Galzgebahn u. Patteriot, Tirol

Dear Mom & Dad,

Dec 16/47

The cable car is the one we rode in today on a small expedition from Zins to St. Christoph. It was a glorious day & three of the glaci- alders were taken by bus to the nearby resort & then slid down the mountain. I have taken several pictures of the scenery about here which was absolutely glorious. I only hope that they turn out O.K. Love to all
Charles.

Dear Mom & Dad Dec 18/14

This card should give you a fair idea of the place where I am skiing for two weeks.

The slopes aren't quite as covered as shown but still there is ample snow for skiing, at least on the hills that I try to traverse. Tomorrow I am in a race ('he & she') that takes place on the hills to the left in the picture. When the sun shines the scenery is magnificent & I hope to get a number of good pictures of it all. Love, Charles.

Da 18/12/18

Dear Mom & Dad,

We have come

here for the day & are about
to return to Zürich. Although
we have only been here
a few hours, we have seen
a great deal & enjoyed our
visit immensely. Perhaps
you will remember this scene.

Love
Charles.
